

SKILLS

| | | |
|--|------------------------|--------------------|
| Semantic HTML & scalable CSS (PostCSS/Sass) | A11y (Sec508/WCAG 2.0) | Working remotely |
| JavaScript (React/Redux, Angular/TS, Node/Express) | Rapid prototyping | Writing unit tests |

EXPERIENCE

AETNA / SENIOR SOFTWARE ENGINEER - FRONT-END

feb 2018 - current

Help build accessible + reusable components for the component library using React/Redux/PostCSS; significant contributions made to the layout component built using CSS Grid (includes support for IE10.) Part of a small, remote front-end team that builds features such as claim payments, spending details, and provider search. Provide engineering support for product, accessibility, design, and content teams.

KALKOMEY / SENIOR FRONT-END DEVELOPER

oct 2015 - aug 2017

Introduced the use of styleguides along with SMACSS/BEM to all new projects for more consistent, rapid development. Helped build the internal content/learning management system using Angular and Rails. Led the front-end development for the customizable storefront that allows US state agencies to sell and manage state licensing products. Created functional prototypes to demo to state agencies.

JOINEM / SOFTWARE ENGINEER II - FRONT-END

april 2014 - aug 2015

First front-end engineer hire at a social e-commerce startup and part of a small engineering team. Took a concept and built a mobile-first/RESTful API driven single page web application with Angular 1.4 and Django. Created the styleguide for the web application. Helped with the UI design as needed.

APOLLO INTERACTIVE / FRONT-END DEVELOPER

aug 2013 - april 2014

Built new web pages, responsive email templates, fixed bugs, and added new features for client websites including Wingstop and Visionworks. Collaborated with designers, account managers, and clients to define and build pages that meet both user and client organization needs.

ONLINE PERFORMANCE MARKETING / WEB DEVELOPER

mar 2013 - aug 2013

Built/designed custom, responsive WordPress themes (PHP) for new clients from high-fidelity prototype to fully launched websites. Created WordPress plugins as needed.

UT-DALLAS / DESIGNER + DEVELOPER

nov 2011 - may 2013

I maintained the content on the recreational sports department site. Built the new department site according to UT-Dallas branding guidelines. Designed posters, flyers, and graphics for campus events.
