hi, my name is

CINDY JUAREZ

I am a senior front-end engineer in Austin, Texas.

www.sceendy.com

I build modern web apps that are functional, efficient, and elegantly + thoughtfully designed.

EXPERIENCE

Senior Front-end Developer @ Kalkomey
October '15 - Now

Build user interfaces that interact with our API's such as for our content/learning management systems, product admin dashboards, and new products. Introduced design documentation, helped establish front-end code standards, and mentor junior developers.

Software Engineer II - Front-end @ Join'em
April '14 - July '15

First front-end engineer at company. Took a concept and built a mobile-first/RESTful API driven single page web application. Created reusable web components to rapidly build new features. Helped company secure over $6M in funding from investors including Priceline and Facebook executives.

Front-end Developer @ Apollo Interactive
August '13 - April '14

Built new web pages, responsive email templates, fixed bugs, and added new features for existing client websites. Helped improve development process and integrate new tools/frameworks. Clients included Einstein Bros, Visionworks, Wingstop, Curves, and Extraco Banks.

Web Developer @ Online Performance Marketing
March '13 - August '13

Built custom mobile-first WordPress themes for new clients from high-fidelity prototype to fully launched website. Helped solve problems such as bounce rate for clients from various industries. Maintained existing client websites and refactored code to improve performance.
